

The background image is a black and white photograph of the Princess Margaret Hospital/Hôpital building. The building features a classical facade with a pediment supported by columns. In the center of the pediment is a crest. Below the pediment, the words "PRINCESS MARGARET HOSPITAL/HÔPITAL" are inscribed. To the left of the entrance, a stone plaque reads "ERECTED", and to the right, it reads "A.D. 1915".
